

BANNERS & DIGITAL PRINTINGS

Dear exhibitor,

In the following pictures, you can view several suggestions for covering your company stand. This is a company presentation method which is cost-effective and presents an aesthetically correct solution used by many companies and exhibitors.

Vertical Communications in co-operation with All About Printings Company can produce banners (this relates to the printing on the canvas – **not the design of the creative**) and ensure their installation at an additional charge of **14 €/m²** (VAT not included in this price).

Booth installation is NOT included in the price (An additional charge of 30-50€ applies).

The price quoted above relates to banners which are installed on the back of each stand and not self-standing banners.

Approximately, 1 week is required for the production of the banners.
